# Acupuncture Consent to Treatment

I hereby request and consent to the performance of acupuncture treatments and other Oriental medicine procedures on me (or on the patient named below, for which I am legally responsible) by the below name licensed acupuncturist.

I understand that methods or treatments may include but are not limited to acupuncture, moxibustion, cupping, bloodletting, electrical stimulation, Tui Na (Chinese massage), Gua Sha, Chinese or Western herbal medicine, and nutritional counselling.

The herbs and nutritional supplements (which are from plant, animal and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese Medicine. I understand the same herbs may be inappropriate during pregnancy and will inform my practitioner immediately of pregnancy status. If I experience any gastro-intestinal reactions to the herbs I will inform the acupuncturist *immediately*.

I have been informed that I have a right to refuse any form of treatment. I have read, or have had read to me the above consent. I have also had an opportunity to ask questions about its content, and by signing below I agree to the above-named procedures. I also understand there is always a possibility of an unexpected complication and I understand that no guarantee can be made concerning the results of treatment. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment. \_\_\_\_\_

I understand it may be necessary for my practitioner to contact another one of my health care providers in order to coordinate medical treatment, to discuss an emergency situation and/or to share appropriate medical information. My signature gives my practitioner permission to release my medical records for the reasons listed above. \_\_\_\_\_

# Chiropractic consent to treatment

I \_\_\_\_\_, of \_\_\_\_\_ do hereby give my consent to the performance of conservative non-invasive treatment to the joints and soft tissues. I understand that the procedures may consist of manipulations/adjustments involving movement of the joints and soft tissues. Physical therapy and exercises may also be used.

Although spinal manipulation/adjustment is considered to be one of the safest, most effective forms of therapy for musculoskeletal problems, I am aware that there are possible risks and complications associated with these procedures as follows:

**Soreness:** I am aware that like exercise it is common to experience muscle soreness in the first few treatments.

**Dizziness:** Temporary symptoms like dizziness and nausea may occur but are relatively rare.

**Fractures/Joint Injury:** I further understand that in isolated cases underlying physical defects, deformities or pathologies like weak bones from osteoporosis may render the patient susceptible to injury. When osteoporosis, degenerative disk, or other abnormality is detected, this office will proceed with extra caution.

**Stroke:** Although strokes happen with some frequency in our world, strokes from chiropractic adjustments are rare. I am aware that nerve or brain damage including stroke is reported to occur once in one million to once in ten million treatments. Once in a million is about the same chance as getting hit by lightning. Once in ten million is about the same chance as a normal dose of aspirin or Tylenol causing death.

**Physical Therapy Burns:** Some of the therapies used in this office generate heat and may rarely cause a burn. Despite precautions, if a burn is obtained, there will be a temporary increase of pain and possible blistering. This should be reported to the doctor.

Tests have been performed on me to minimize the risk of any complication from treatment and I freely assume these risks.

## TREATMENT RESULTS

I also understand that there are beneficial effects associated with these treatment procedures including decreased pain, improved mobility and function, and reduced muscle spasm. However, I appreciate there is no certainty that I will achieve these benefits.

I realize that the practice of medicine, including chiropractic, is not an exact science and I acknowledge that no guarantee has been made to me regarding the outcome of these procedures.

I agree to that performance of these procedures by my doctor and such other persons of the doctor's choosing.

## ALTERNATIVE TREATMENTS AVAILABLE

Reasonable alternatives to these procedures have been explained to me including rest, home applications of therapy, prescription or over-the-counter medications, exercises and possible surgery.

**Medications:** Medication can be used to reduce pain or inflammation. I am aware that long-term use or overuse of medication is always a cause for concern. Drugs may mask pathology, produce inadequate or short-term relief, undesirable side-effects, physical or psychological dependence, and may have to be continued indefinitely. Some medications may involve serious risks.

**Rest/Exercise:** It has been explained to me that simple rest is not likely to reverse pathology, although it may temporarily reduce inflammation and pain. The same is true of ice, heat, or other home therapy. Prolonged bed rest contributes to weakened bones and joint stiffness. Exercises are of limited value but are not corrective of injured nerve and joint tissues.

**Surgery:** Surgery may be necessary for joint stability or serious disk rupture. Surgical risks may include unsuccessful outcome, complications, pain or reaction to anesthesia, and prolonged recovery.

**Non-treatment:** I understand the potential risks of refusing or neglecting care may include increases pain, scar/adhesion formation, restricted motions, possible nerve damage, increased inflammation, and worsening pathology. The aforementioned may complicate treatment making future recovery and rehabilitation more difficult and lengthy.

**I have read or have had read to me the above explanation of chiropractic treatment. Any questions I have had regarding these procedures have been answered to my satisfaction PRIOR TO MY SIGNING THIS CONSENT FORM. I have made my decision voluntarily and freely.**

To attest to my consent to these procedures, I hereby affix my signature to this authorization for treatment.
